Message from the Conference Chairman

Greetings !

I am pleased to announce the Fifth International Conference (in the 14th year of our Academics) from The Heart Care Clinic: **“3-C Con 2009”** from 9th to 11th January 2009, to be held in Ahmedabad. We began academic programs originally in 1995 with just under 50 delegates and finally reaching, 1300 delegates for 3-C Con 2008.

I am happy to announce that the entire International Faculty has confirmed their participation in the Conference.

If we see the development of Medical technology around us, a magical transformation has taken place in our lives. It is the law of life that whatever we give our attention to and believe becomes our expertise. Let us again get together and concentrate our thoughts on the medical marvel of this century with positive attitude. It has been said to “enthuse” means to fill with spirit. "Enthusiasm" facilitates achievement. "Enthusiasm" is contagious.

With over 150 lectures and over 50 faculty this will be one of best of 3-C Con Conferences with emphasis on clinical cardiology.

If we take up any activity enthusiastically as a positive adventure, we can inspire all around us.

3-C CON 2009 will be a positive inspirational adventure of:

- Creativity
- Clinical Education
- Change

We would like to invite our physicians friends as well as cardiologists from all over the world for this conference. Please visit our website www.indianheart.com and preview the previous years programmes and faculty.

Let us all be there to enjoy a feast of learning and education. Let us together change our minds to eventually change our patient's lives...

Dr. Keyur Parikh
(Conference Chairman)

In Collaboration with
‘Association of Physicians of Ahmedabad’
