Message from the desk of Chairman-Scientific Committee

Dear Friends,

3-C Con 2010 is just a week ahead and we are looking forward to have you as a part of the Conference.

To have a successful gathering every year is a great task. And it has been possible only due to your enthusiastic participation. We have already registered over 1500 delegates this year, and we heartily welcome all of you.

We have a record breaking number of national and international faculty (over 200) this year. Their esteemed presence along with your earnest involvement helps in invigorating and furthering the learning process. Learning is a continuous process and it is our endeavour to match your expectations each year.

The lectures this year are large in number as we believe it is important that the time you have spared from your valuable practice be justified by learning and educating oneself about the latest in the medical field. The Scientific Program has been designed to help you in day-to-day clinical practice and most of lectures are based on evidence based clinical cardiology with highlights ranging from molecular and genetic basis of diseases to latest innovations in field of cardiology and medicine.

We appreciate your confidence in our ability to deliver your expectations of an interesting and educative conference.

Dr. Milan Chag
Chairman, Scientific Committee
