HUMANE BY PRACTICE

FROM THE DESK OF ORGANIZING COMMITTEE

"The best way to find yourself is to lose yourself in the service of others."

- Mahatma Gandhi

Warm greetings from the JIC Organizing Committee!

It gives us immense pleasure to invite you once again to be a part of the 22nd Joint International Conference - JIC 2026, scheduled from January 9th to 11th, 2026, in the ever-evolving city of Ahmedabad. Visit: www.jicindia.org

Over the past two decades, JIC has grown from a scientific meeting into a movement - one that fosters ideas, nurtures talent and celebrates innovation in healthcare. Each year, your presence and contributions bring renewed energy to this platform, and we are excited to continue this journey together.

JIC 2026 will feature renowned international speakers and global thought leaders, offering a dynamic platform for scientific exchange, interactive learning, and cross-disciplinary dialogue. It will be a space to learn, question, and collaborate - pushing boundaries for a healthier tomorrow.

Ahmedabad, with its blend of tradition and modernity, sets the perfect backdrop for this exchange. From centuries-old stepwells to cutting-edge institutions, the city offers much to explore and experience beyond the conference hall.

Join us in making JIC 2026 another chapter of impact, insight and inspiration.

With warm regards,

Organizing Committee – JIC 2026

FROM THE DESK OF THE FOUNDING MEMBER, GROUP MANAGING DIRECTOR & CEO MARENGO ASIA HOSPITALS

Over the last 21 years, the Joint International Conference (JIC) has established itself as a premier academic forum that goes beyond knowledge-sharing to shaping the future of clinical practice. Each edition has strengthened our collective resolve to create a space where science, innovation, and collaboration converge. What began as a scientific exchange has grown into a platform that nurtures learning, mentorship, and professional growth for practitioners and students alike.

The success of previous editions has reaffirmed the importance of bringing together diverse perspectives—from emerging clinicians to globally acclaimed experts. Across past editions, JIC has hosted eminent international faculty from leading global institutions, bringing with them new-age science, evidence-based protocols, and real-world implementation insights. Their contributions have helped our community benchmark against global standards and best practices, and translate those learnings to improved patient outcomes in our settings.

Every year, JIC sees participation in the thousands. With prominent national and international guests, the conference has become one of the most sought-after and widely anticipated academic gatherings in the country—an annual meeting point for clinicians, researchers, educators, and students who are committed to clinical excellence.

Over three days, you will experience insightful workshops and symposia spanning the full spectrum of medicine—including ICU case discussions, pulmonary and critical care, infectious diseases updates, grey zones in acute stroke, oncology updates, haematology in day-to-day practice, anti-obesity therapeutics, rheumatology case challenges, diabetes and metabolism, and more. These interactive formats are designed to ensure that every participant engages with evidence-based insights and practical, standards-aligned approaches that can be implemented at the bedside.

JIC continues to be a convergence point for international faculty, leading academicians, and practicing clinicians—a true ecosystem where knowledge is shared, global perspectives are exchanged, and best practices are adapted for local realities. It is this collaborative spirit that makes JIC an impactful platform, year after year.

I welcome you to yet another thought-provoking season of JIC and look forward to your active participation in shaping the dialogue for better healthcare outcomes.

Dr Raajiv Singhal

Founding Member,
Group Managing Director & CEO
Marengo Asia Hospitals

FROM THE DESK OF THE GROUP MEDICAL DIRECTOR

For over two decades, the Joint International Conference (JIC) has grown into one of the region's most respected academic platforms-advancing scientific dialogue and shaping the evolution of clinical care. Each edition strengthens our commitment to a space where research, technology, and multidisciplinary expertise come together with purpose. What began as a focused knowledge exchange has developed into a dynamic forum that nurtures talent, mentorship, and continuous professional growth for clinicians and learners at all levels.

JIC now draws thousands of participants annually and features leading contributors from India and abroad. It has become one of the most anticipated academic gatherings for clinicians, researchers, academicians, and students striving for excellence in care.

Warm Regards,

Dr Virandera Pal Bhalla

Group Medical Director, Marengo Asia Hospitals

FROM THE DESK OF THE UNIT HEAD & MEDICAL DIRECTOR

Across 21 years, the Joint International Conference (JIC) has evolved into a platform that meaningfully influences clinical practice through scientific clarity, innovation, and multidisciplinary collaboration. Its journey from a modest meeting to a comprehensive learning ecosystem reflects our shared commitment to continuous professional development.

This year's scientific program includes focused updates in interventional cardiology, structural heart disease, electrophysiology, heart failure, preventive cardiology, and critical cardiac emergencies. A dedicated MD Medicine & Emergency Quiz aims to strengthen clinical reasoning for young physicians.

Concise satellite symposia will also present key updates across pulmonary and critical care, infectious diseases, stroke medicine, oncology and haematology, metabolic health, and rheumatology, ensuring participants receive evidence-aligned, practical insights.

JIC remains a vital forum where academicians, experts, and clinicians exchange knowledge, broaden perspectives, and refine best practices for real-world clinical needs.
